

**levelsmart**™  
Wireless Autofill

An innovative wireless autofill system for pools, spas, ponds, water features, and tanks

**Level-up your pool game,  
with the LevelSmart™  
wireless autofill system.**

LevelSmart™ is an innovative device designed to help homeowners, property managers, builders and maintenance companies with the challenges of maintaining water levels in pools, spas, ponds, water features, and tanks.

***Enjoy a perfect  
pool, everytime!***

**Level Smarter, not harder!**

LevelSmart™ eliminates the chore of filling your pool manually and the risk of over-filling it. With 24-hour-per-day wireless monitoring, LevelSmart™ automatically maintains the water level of your pool, spa, pond, water feature, or tank.

LevelSmart™ can be easily installed to any new or existing application. American-made quality, combined with an innovative and patented proprietary sensing method, ensures that LevelSmart is the most reliable and user-friendly autofill system on the market.

## Why choose LevelSmart?

### Less hassle. Greater reliability.

Eliminates refilling with a hose or an unreliable float level controller.

### Wireless

Features up to 1,000 feet of wireless communication.

### Simple installation

Installs quickly and easily to any new or existing pool with no damage or construction required.

### Online monitoring

Optional online monitoring and alerts available with LevelSmart Online.

### Built-in protection

Built-in protection against over-filling.

### No maintenance

No maintenance required after installation.

### Equipment protection

Eliminates risk of entrained air in the system, which can cause damage to the pump and other equipment.

# KEY BENEFITS

## Drop the hose

LevelSmart eliminates the chore of manually maintaining the water level with a hose and instead allows the user to kick back and enjoy their swimming pool.

## Increase safety

By removing the need to have a hose draped across the pool deck, LevelSmart also removes the associated trip hazard and increases overall safety.

## Retrofit anywhere

Because LevelSmart is a wireless device, it can easily be retrofitted to any swimming pool with no mess or need for deck destruction.

## Extend equipment life

Using LevelSmart extends equipment life by preventing the pool pump from running dry and burning out.

## Increase efficiency

By only adding water when necessary, LevelSmart helps to reduce water and energy consumption.

## Ready to use

LevelSmart constantly maintains the desired water level of your swimming pool or spa, meaning it's ready to use at all times.

## Get more with LevelSmart Online

LevelSmart™ Online offers even greater functionality and flexibility for the user. Upgrade<sup>(1)</sup> to LevelSmart™ Online to gain access to these features and benefits:
